**LICENSE AGREEMENT  
FOR  
POLE ATTACHMENTS**

THIS AGREEMENT made this 24<sup>th</sup> day of July, 1970, between SOUTH CENTRAL BELL TELEPHONE COMPANY, a corporation organized and existing under the laws of the State of Georgia, having its principal office in the City of Birmingham, Alabama, hereinafter called Licensor, and York Cable Television, Inc. d/b/a Southwest Cablevision hereinafter called Licensee.

**WITNESSETH:**

WHEREAS, Licensee now proposes to furnish certain communications services in Centreville, Gloster, Liberty and Woodville, Mississippi as shown on the map attached hereto as Exhibit A and made a part hereof; and

WHEREAS, Licensee will need to place and maintain aerial cables, equipment and facilities within the area described above and desires to place such cables, equipment and facilities on poles of Licensor; and

WHEREAS, Licensor is willing to permit, to the extent it may lawfully do so, the placement of said cables, equipment and facilities on Licensor's poles where reasonably available and where such use will not interfere with Licensor's service requirements, or the use of Licensor's facilities by others.

NOW, THEREFORE, in consideration of the mutual covenants, terms and conditions herein contained, the parties do hereby mutually covenant and agree as follows:

**ARTICLE I**

**DEFINITIONS**

As used in this Agreement:

Licensor's "poles" mean poles owned by Licensor.

"Anchor" means an anchor owned by Licensor which is a device to reinforce the pole to which it is attached by a guy wire.

The term "joint-use arrangement" shall be construed to mean an arrangement whereby each party to an agreement owns poles and have agreed that the other party has the right to attach to and occupy space upon the poles owned by it.

## **ARTICLE II**

### **SCOPE OF AGREEMENT**

(a) Subject to the provisions of this Agreement, the Licenser will issue to the Licensee, for any lawful communications purpose, revocable, nonexclusive licenses authorizing the attachment of Licensee's cables, equipment and facilities to Licenser's poles and anchors within the areas shown on Exhibit A attached hereto, or described above.

(b) No use, however extended, of Licenser's poles and anchors or payment of any fees or charges required under this Agreement shall create or vest in Licensee any ownership or property rights in said poles and anchors, but Licensee's rights therein shall be and remain a mere license. Nothing herein contained shall be construed to compel Licenser to construct, retain, extend, place or maintain any facilities not needed for its own service requirements.

(c) It is recognized by the Licensee that the Licenser has heretofore entered into, or may in the future enter into, agreements and arrangements with others not parties to this Agreement regarding the poles and anchors covered by this Agreement. Nothing herein contained shall be construed as a limitation, restriction or prohibition against Licenser with respect to such other agreements and arrangements.

(d) The rights of the Licensee shall at all times be subject to any present or future joint-use arrangement between Licenser and any other party regarding use of the facilities covered herein.

## **ARTICLE III**

### **FEES AND CHARGES**

(a) The Licensee shall pay to Licenser the fees and charges as specified in and in accordance with the terms and conditions of APPENDIX 1-P, attached hereto and made part hereof.

(b) Nonpayment of any amount due under this Agreement shall constitute default of this Agreement.

(c) Licensee shall furnish bond or other satisfactory evidence of security in such amount as Licenser from time to time may require, in an initial amount of \$5,000.00, but not exceeding \$5,000.00, to guarantee the payment of any sums which may become due to Licenser for fees due hereunder or charges for work performed for the benefit of Licensee under this Agreement, including the removal of Licensee's facilities upon termination of this Agreement by and of its provision or upon termination of any license issued hereunder. This bond requirement may be waived in writing by Licenser.

(d) On July 1, 1990, and at the end of every one (1) year period thereafter, the fees and charges specified in APPENDIX 1-P may be adjusted at the request of Licenser or Licensee after notice made in

writing to the other party not later than sixty (60) days before July 1, 1990, or the end of any subsequent one (1) year period thereafter. If agreement is not reached as to fees and charges within sixty (60) days after notification of the desire of either party to adjust fees and charges, either party may thereafter terminate this Agreement, which termination shall be effective upon six (6) months' written notice to the other party. Unless specifically rejected in writing, within (60) days, such adjusted rates and changes shall be deemed accepted.

(e) Changes or amendments to APPENDIX 1-P shall be affected by the separate execution of APPENDIX 1-P as so modified. The separately executed APPENDIX 1-P shall become a part of and be governed by the terms and conditions of this Agreement.

#### **ARTICLE IV**

##### **SPECIFICATIONS**

(a) Licensee's cables, equipment and facilities shall be placed and maintained at Licensee's expense in accordance with the requirements and specifications of APPENDIX 2-P attached hereto and made a part hereof. Unless different standards are specified herein, the provisions of the National Electrical Safety Code (6th edition), and any amendments thereto or replacements thereof, shall be applicable.

(b) Changes or amendments to APPENDIX 2-P shall be effected by the separate execution of APPENDIX 2-P as so modified. The separately APPENDIX 2-P shall become a part of and be governed by the terms and conditions of this Agreement.

(c) Failure to comply with this Article or APPENDIX 2-P to this Agreement shall constitute a default of this Agreement.

#### **ARTICLE V**

##### **LEGAL AUTHORITY**

(a) Licensee shall submit to Licensors satisfactory evidence of lawful authority to place, maintain and operate its facilities within public streets, highways, and other thoroughfares and shall secure any necessary permits and consents from Federal, State, County and Municipal authorities and from the owners of property to construct, maintain and operate facilities at the locations of poles and anchors of Licensors which it uses. Licensee shall indemnify and reimburse Licensors for all loss and expense which results from claims of governmental bodies, owners of property or others that Licensee has not a sufficient right of authority for placing and maintaining Licensee's facilities on Licensors' poles.

(b) The parties hereto shall at all times observe and comply with, and the provisions of this Agreement are subject to all laws, ordinances and regulations which in any manner affect the rights and

obligations of the parties hereto under this Agreement, so long as such laws, ordinances or regulations remain in effect.

## **ARTICLE VI**

### **ISSUANCE OF LICENSES**

(a) Before Licensee shall have a right to attach to any pole or anchor of Licensor, Licensee shall make application for and receive a revocable, nonexclusive license therefore in the form of Exhibit B, hereto attached and made a part hereof.

(b) Any license granted hereunder for attachment to Licensor's poles or anchors shall terminate without further notice to Licensee as to individual poles or anchors covered by the license to which Licensee has not attached within sixty (60) days from the date that Licensor has notified Licensee that such poles or anchors are available for attachment of the operating facilities of Licensee.

## **ARTICLE VII**

### **POLE REPLACEMENTS AND REARRANGEMENTS**

(a) Licensor reserves the right to refuse to grant a license for the attachment to its poles or anchors when Licensor determines, in its judgment, that the communication space on such pole is required for its exclusive use or that the pole or anchor may not reasonably be rearranged or replaced.

(b) In the event Licensor, in its judgment, determines that any pole or anchors of Licensor to which Licensee desires to make attachments is inadequate or otherwise needs arrangement of the existing facilities thereon to support or accommodate the additional facilities of Licensee in accordance with the specifications set forth in APPENDIX 2-P, Licensor will indicate on the application (Exhibit B) the changes necessary to provide adequate pole or anchor space and the estimated cost thereof to Licensee and return it to Licensee. If Licensee desires that such changes be made and returns the application marked to so indicate, Licensor will make such changes, including the replacement of inadequate poles or anchors, and Licensee shall pay Licensor in accordance with the terms of APPENDIX 1-P. Licensee shall also reimburse the owner or owners of other facilities attached to said poles or anchors for any expense incurred by it or them in transferring or rearranging said facilities to accommodate Licensee's attachments. Licensee shall not be entitled to reimbursement of any amounts paid to Licensor for pole or anchor replacements or for the rearrangement of facilities on Licensor's poles or anchors by reason of the use of any of the pole or anchor space so acquired by Licensor or other authorized user.

(c) Should Licensor, another utility, governmental body or other entity, with whom it then has a joint-use agreement, need for its own service requirements the space occupied by Licensee's attachments on

any of Licensor's poles or anchors, Licensee will be notified that it shall either surrender its license for that pole or anchor; and, at its own expense, vacate the space by removing its attachments, or it shall authorize Licensor to replace the poles or anchors at the expense of Licensee, in the same manner as stated in the preceding Paragraph (b) covering the replacement or rearrangement of poles or anchors when required to accommodate Licensee's attachments, or, if Licensor advises Licensee that Licensee's desired attachments can be accommodated on present poles or anchors of Licensor by rearranging Licensor's facilities thereon, Licensee shall authorize Licensor to make such arrangements. Licensee shall also reimburse the owner or owners of other facilities attached to said poles or anchors for any expense incurred by it or them in transferring or rearranging said facilities to accommodate Licensee's attachments. Any strengthening or stepping poles will be provided at the expense of Licensee in accordance with the specifications in APPENDIX 2-P.

(d) When multiple applications, including application of Licensee, are received by the Licensor with respect to any pole or anchor which must be replaced or rearranged to provide additional space, prior to commencement of the work on that pole or anchor, Licensor will endeavor to prorate to the extent that it is practical between Licensee and the other applicants for pole or anchor space, the common expenses of engineering, rearrangement and replacement, if any, which result from the processing of multiple applications. Licensee shall be bound by Licensor's determination as to any such proration of costs to Licensee.

(e) Whenever it is necessary for Licensor to make pole or anchor replacements or rearrangements in order to accommodate Licensee's cable, equipment and facilities, Licensor will endeavor to perform or have performed such work after issuance of the license to, and acceptance of responsibility for cost by, Licensee in the form of Exhibit B, as soon as is practicable upon consideration of Licensor's service requirements.

## **ARTICLE VIII**

### **CONSTRUCTION AND MAINTENANCE OF FACILITIES**

(a) Licensee shall, at its own expense, make and maintain its pole and anchor attachments in a safe condition and in thorough repair, and in a manner acceptable to Licensor, and so as not to conflict with the use of said poles and anchors, or interfere with other facilities thereon or which may from time to time be placed thereon. Licensee shall, at its own expense, upon five (5) days' notice from Licensor, relocate or replace its facilities placed on said poles or anchors, or transfer them to substituted poles or anchors, or perform any other work in connection with said facilities that may be required by Licensor; provided, however, that in cases of emergency, Licensor may arrange to relocate or replace the attachments placed on said poles or anchors by Licensee, transfer them to substituted poles or anchors or perform any other work in connection with said facilities that may be required in the

maintenance, replacement, removal or relocation of said poles or anchors or of the facilities thereon or which may be placed thereon or for the service needs of Licensor and Licensee shall reimburse Licensor for the expense thereby incurred.

## **ARTICLE IX**

### **TERMINATION OF LICENSES**

(a) Upon notice from Licensor to Licensee that the use of any pole or anchor is not authorized by Federal, State, County or Municipal authorities or private property owners, the license covering the use of such pole or anchor shall immediately terminate and shall be surrendered and Licensee shall remove its cables, equipment and facilities at once from the affected pole or poles, anchors at Licensee's expense.

(b) Licensee may at any time remove its facilities from any pole or anchor of Licensor, but shall immediately give Licensor written notice of such removal and surrender of License in the form of Exhibit C, hereto attached and made a part hereof. If Licensee surrenders its license pursuant to the provisions of this Article, but fails to remove its facilities from Licensor's poles or anchors within thirty (30) days thereafter, Licensor shall have the right to remove Licensee's facilities at Licensee's expense and without any liability on the part of Licensor for damage or injury to Licensee's facilities. In the event that Licensee's cables, equipment and facilities shall be removed from any pole or anchor as provided by this Article, no attachment shall again be made to such pole or anchor unless Licensee shall have first complied with all of the provisions of this Agreement as though no such attachment had previously been made.

## **ARTICLE X**

### **INSPECTION OF LICENSEE'S INSTALLATIONS**

(a) Licensor reserves the right to make periodic inspections of any part of the cable, equipment and facilities of Licensee on its poles or anchors and in the vicinity of such Licensor's poles, anchors, cable, equipment and facilities; and Licensee shall reimburse Licensor for the expense of such inspections. Inspections will not be made more often than once a year and upon notice to Licensee unless, in Licensor's judgement, such inspections are required for reasons involving safety or are required because of a violation of the terms of this Agreement by Licensee. The charge for the inspection shall be in accordance with the terms and conditions of APPENDIX 1-P. The making of such inspections or the failure to do so shall not operate to relieve Licensee of any responsibility, obligation or liability assumed under this Agreement.

(b) If any cable, equipment or facilities of Licensee shall be found on a pole or anchor for which no license is outstanding,

Licensors, without prejudice to its other rights or remedies under this Agreement or otherwise, may (1) impose a charge, and (2) require Licensee to remove such cable, equipment or facilities forthwith or Licensors may remove them without liability and the expense of removal shall be borne by Licensee. For the purpose of determining the charge, absent satisfactory evidence to the contrary, the unlicensed use shall be treated as having existed for a period of two (2) years prior to its discovery or for the period beginning with the date of this Agreement, whichever period shall be the shorter; and the fee, at the appropriate rate as shown in APPENDIX 1-P, for each year and for any portion of a year contained in such period, shall be due and payable forthwith. Any such fee imposed by Licensors shall be in addition to its rights to any other sums due and payable and to any claims or damages under this Agreement or otherwise. No act or failure to act by Licensors with regard to said fee or said unlicensed use shall be deemed as a ratification or the licensing of the unlicensed use, and if any license in the form of Exhibit B should subsequently be issued, after application therefore, said license shall not operate retroactively or constitute a waiver by Licensors of any of its rights or privileges under this Agreement or otherwise.

## **ARTICLE XI**

### **LIABILITY AND DAMAGES**

(a) Licensors reserves to itself, its successors and assigns, the right to maintain its poles and anchors and to operate its facilities thereon in such manner as will best enable it to fulfill its own service requirements. Licensors shall not be liable to Licensee for any interruption of service of Licensee or for interference with the operation of the cables, equipment and facilities of Licensee arising in any manner, except from Licensors's sole negligence, out of the use of Licensors's poles and anchors.

(b) Licensee shall exercise special precautions to avoid damaging the cables, equipment and facilities of Licensors and of others occupying Licensors's poles and anchors and Licensee hereby assumes all responsibility for any and all loss for such damage. Licensee shall make an immediate report to Licensors of the occurrence of any such damage and hereby agree to reimburse the respective owners for the expense incurred in making repairs.

(c) Licensee shall indemnify, protect and save harmless Licensors from and against any and all claims demands and damages to property and injury to or death of persons, including payments made under any Workmen's Compensation Law or under any plan for employees' disability and death benefits, which may arise out of or be caused by the erection, maintenance, presence, use or removal of Licensee's cable, equipment and facilities or by the proximity of the cables, equipment and facilities of the Licensee to those of Licensors or its other Licensees, or by any act of Licensee on or in the vicinity of Licensors's poles and anchors, or Licensee's breach of any part of this Agreement, regardless of whether or not any such damage to property or injury to or death of person results from Licensee's

negligence. Licensee shall also indemnify, protect and save harmless Licenser from any and all claims and demands of whatever kind which arise directly or indirectly from the operation of Licensee's facilities including taxes, special charges by others, claims and demands for damages or loss for infringement of copyright, for libel and slander, for unauthorized use of material, and from and against all claims and demands for infringement of patents with respect to the manufacture, use and operation of Licensee's equipment whether arising for the use of Licensee's equipment in combination with Licenser's poles, anchors or otherwise.

(d) Licensee shall carry insurance to protect the parties hereto as named insured from and against any and all claims, demands, actions, judgments, costs, expenses and liabilities of every kind and nature which may arise or result, directly or indirectly, from or by reason of any loss, injury or damage described in (c) above.
